Let's go to NYC! By Sara

There are five neighborhoods ("boroughs") in New York City: Manhattan, The Bronx, Staten Island, Brooklyn, and Queens. My favorite neighborhood is Manhattan. There are lots of people and lots of really great buildings.

The Empire State Building is between Broadway and Fifth Avenue, on the corner of West 34th Street. It's 443.2 meters tall! Down the street there's a big store, Macy's. It's awesome! Across the street from Macy's there's The Manhattan Mall. My favorite store is Aéropostale.

There's an amazing movie theater between Seventh and Eighth Avenues: AMC Empire 25. There are 25 screens! Awesome! My favorite restaurant, Planet Hollywood, is around the corner.

There are 1,900 parks in New York. My favorite is Washington Square Park. Next to it there are lots of beautiful apartment buildings and hotels.

1. Read the text. Match the names with the descriptions.

1. Staten Island
2. Macy's
3. Planet Hollywood
4. Aéropostale
5. Empire State building
6. AMC Empire 25

a. a very tall building
b. a restaurant
